

I'm SO Glad You Joined Me Today.

I encourage you to visit your pantry, Dollar Store, craft area and look at the things you might already have, repurpose, Let YOUR imaginations run. Sometimes looking at something from a different angle or even upside down causes a whole new idea to emerge.

Get moving and discover the fun in your own inner childlike qualities.

In our world today, our littles miss out on the fun, discovery and self-assuredness of play, song and dance.

No need for an electronic device to tell us we are doing something "correctly".

Here is a list of some songs, ideas and artists. Feel free to add your own!
